

## The "TATAMI" mat supports "Healthy house".

### 1 "TATAMI" mat is said, "Air cleaner of nature".

The diameter of the rush is about 1.5mm. The section becomes like the beehive. Therefore, moisture can be fully breathed in and poisonous substances such as NO2 and VOC are adsorbed. As for straw that is the material of "TATAMI-TOKO", it is similar to the rush. The "TATAMI" mat is called the "Air cleaner of nature".

### 3 The "TATAMI" mat is ideal for the elderly person and the baby.

It is not an exaggeration to say that life with the "TATAMI" mat will support Japanese health. Recently, the senior citizen society is proceeding in Japan. "Long life science research" of the Japanese Ministry of Health, Labor and Welfare announced, 「The life of the "TATAMI" mat is ideal」. It becomes fracture prevention due to osteoporosis.

### 2 The "TATAMI" mat is comfortable.

One per one of the straw and the rush is a cave the inside, and becomes like the straw. It is excellent in the following by the structure. (Elasticity and durability. Absorbing sound and effect of interception. It is cool in summer, it is warm in winter... Heat insulation is good.) The smell, the color, and touch are important elements that support comfortable every day.

For instance, sleeping with "TATAMI" mat and futon. It sits on the "TATAMI" mat and it stands up, futon putting day and night in and out... Operation in daily life naturally strengthens the lower body. Young people who increase the amount of the bone become especially important. At sleeping, the spine is prevented from bending. The feeling of "TATAMI-OMOTE" stimulates baby and elderly person's backs of the foot, and activates the brain. Moreover, shock is softened at an emergency fall.
